

THE MK3 DESKTOP MANUAL ENGRAVING MACHINE

- Engravers •shoe repairers •trophy retailers •jewellers •gift shops •electrical contractors
- market traders •funeral directors •component manufacturers •engineers

MACHINE PRICE £1395.00

The MK-3 is an extremely versatile and portable engraving machine.

Full vice adjustment offers the operator a high degree of accuracy in holding and positioning all kinds of engravable items.

The MK-3 machines are fitted with a very reliable silent induction motor.

This machine comes complete with a motorised spindle which will enable you to engrave onto almost any material including plastic, metal and wood.

The MK3 machine also includes two copy slides, pair of standard work holding jigs*, one carbide cutter, a diamond cutter & comprehensive instructions. Add to the machine price the cost of a letter set from the list below.
